SUSTAINABLE TOURISM DIALOGUES IN AFRICA

Focusing on the future of tourism, *Sustainable Tourism Dialogues in Africa* is inclusive of experienced and emerging researchers, as well as incorporating local stakeholders in the tourism industry: architects, tourism operators, sustainable tourism lobbyists, policy makers, archaeologists, and geographers. The editors are frontline sustainable tourism advocates in Africa, and the book's thematic content is derived from 30 inter-university seminars on sustainable tourism hosted by Sustainable Travel & Tourism Agenda Kenya from 2017 to November 2019. These seminars involved the participation of 17 universities in Kenya, tourism operators, conservationists, developmentalists, investors, policy makers, and students.

Every chapter is a voice projecting aspirations for the responsible management of tourism in Africa and promoting the ideals of sustainable tourism that young people in Africa advocate for the industry's future. In so doing, the authors pinpoint the necessary actions for bringing about transformations in sustainable development of tourism. The book thus seeks to encourage debate, while facilitating the development of both theoretical and practical foundations for managing tourism sustainably in Africa.

- Provides viewpoints from academic and industry professionals in understanding sustainable tourism in Africa, through a perspective defined by young people in Africa
- Will offer fresh destination dialogue perspectives in different parts of Africa
